

NIXON AMENDS THE SUNDY CIVIL BILL

On February 3 Senator Nixon introduced in the senate the following amendment to the bill making appropriations for the sundry civil expenses of the government for the fiscal year 1912, and for other purposes:

"That an additional two million acres of arid lands within the state of Nevada be made available and subject to the terms of section four of an act of congress entitled 'An act making appropriations for sundry civil expenses of the government for the fiscal year ending June 30, 1895, and for other purposes,' approved August 18, 1894, and by amendments thereto, and that the state of Nevada be allowed under the provisions of said acts said additional area, or so much thereof as may be necessary for the purposes and under the provisions of said acts."

The bill was referred to the committee on public lands, which reported favorably on the 9th inst., when it was referred to the committee on appropriations and ordered to be printed.

POSTAL SAVINGS BANKS PROMISE BIG RESULTS

WASHINGTON, D. C., Feb. 16.—If the postal savings bank system of the United States keeps up the pace it set in January, it will outstrip that of Great Britain in its most successful year, 1908. According to an announcement made by Postmaster General Hitchcock, yesterday, the reports for January show that the deposits for the month will amount to about \$60,000. There are forty-eight offices in operation so that the average is about \$1,200. If this average is maintained the year's total will be about \$750,000.

A large majority of the depositors in January were foreign born and many of them were in the habit of sending their savings abroad.

The system, therefore, will diminish the outflow from the United States of such funds. The plan of giving certificates of deposit instead of pass-books has proved very satisfactory.

Postmaster General Hitchcock will ask congress for \$1,000,000 additional with which to extend the system.

NOTICE F. & A. M.
TONOPAH LODGE, NO. 28, F. & A. M., will hold a stated communication (Friday) evening at 7:30 o'clock at Butler Hall. Work in third degree. All members are requested to attend. Visiting brethren cordially invited to be present. By order of the W. M.
H. C. SCHMIDT, Secretary.

MORE REGARDING RECENT STRIKE

Indications are that the strike made on the north side of Winnemucca mountain two weeks ago will prove to be of a permanent character. The find was made on the A. and T. claims, owned by W. G. Adamson and associates, situate a few hundred feet over the mountain summit, and distant from Winnemucca, by direct trail, some four miles.

The ledge is from fourteen to eighteen feet wide, the ore for the entire distance carrying values, in the proportion of two ounces of gold to one in silver. In places, however, the rock is nearly solid metal, running in value from \$15 to \$30 per pound. A small force of men is at work on the property, getting out and sacking ore, and it is probable that a shipment will be made in the near future. To a representative of the Silver State a man, who is well acquainted with this section of the country, said:

"In the locality of the recent great strike made by Adamson and associates there has been less actual prospecting done than in most any other part of the state. I believe it is to be a locality rich in gold and silver, and that, with proper work, it will develop into one of the greatest camps in the entire state. Extending from the mountain to Barret Springs, north and south, and for an equal distance east and west, the entire country is heavily mineralized, gold and silver predominating, and wherever one may sink, uniform values are encountered at a certain depth." —Silver State.

FROM COAST TO COAST COACHING TRIP

Paul A. Sorg, who defeated Alfred G. Vanderbilt in record time in the ten-mile coaching race at the New York National Horse show last fall, has announced his intention to dispose of a big stable of show horses and drive from New York to San Francisco with a coach and four. He will start from New York on April 1, on what will be the longest and most difficult coaching trip yet attempted by an amateur or professional four-in-hand whip.

The 3600-mile run from the Atlantic to the Pacific is to be carried out on a scale unexampled in the annals of the road with an equipment of 75 horses, two coaches, 40 men and two special cars for transportation of paraphernalia.

The route of the New York Central railroad will be followed closely as far as Chicago, and the teams used each day will be shipped ahead by rail in the special cars to await the coming of the coach and to rest in the interval.

The stages are to be twelve miles, and at the end of each stage the horse-keepers will be posted

with a fresh team ready to whirl the "old sport," as Mr. Sorg's road coach is called, over the turn-pike to the next relay station.

One of the special cars will carry an extra coach to be used in case of a breakdown and a blacksmith will go along to shoe the horses and make any needed repairs to the coaches.

GENERAL ORDER NO. 13.
Reno, Nev., Feb. 1, 1911.
To the Owners or Parties in Control of Sheep:

It is hereby ordered, that all the sheep in the state, shall be inspected March 1, 1911, to July 1, 1911, and a certificate issued for all sheep found free from scab. If sheep are found to be scabby, they must be immediately quarantined and dipped twice (lime and sulphur dip), ten to fourteen days apart. If sheep are found actually exposed they must be dipped under the immediate supervision of a state or federal inspector, in a vat approved by him at the owner's expense. When satisfactorily dipped, a certificate will be issued stating that the sheep have been dipped as approved by the commission.

It is further ordered that the quarantine line established across the state, March 1, 1909, commencing at the Nevada-Utah line, at the intersection of the Southern Pacific railroad, thence westerly along the Southern Pacific tracks to Winnemucca, thence westerly along the Western Pacific tracks to the Nevada-California line, be still enforced, and that no owner or person in control of sheep, shall drive or cause to be driven, across said line, any sheep without a certificate having been issued since March 1, 1911, and signed by an authorized inspector.

This order will take effect March 1, 1911.

Dated February 1, 1911.
O. W. WARD, President.
J. OTIS JACOBS, Secretary.

ELY PRODUCES MORE THAN TWO MILLIONS

Ely has again struck her gait. With a gross output of \$2,503,934 by the Nevada Consolidated Copper company for the quarter ending December 31, 1910, the results show

that the Ely district is fast attaining fame as one of the noted copper camps of the country.

Deducting the amounts that were expended in extraction, transportation and reduction, the net yield of the Nevada Consolidated will amount, to \$661,851.54.

On this basis, that corporation has paid into the assessor's office \$11,193.33 as bullion tax on its net production for the last three months of 1910.

The report of the company officials indicates a material increase in production over the record for the third quarter.

PRIZE FIGHT PICTURES CAUSE CIVIC TROUBLE

WESTERLY, R. I., Feb. 16.—Because moving pictures of a prize-fight were exhibited in Westerly last week by permission of the common council, the town's two police commissioners, William Culley and Horace E. Burdick, have tendered their resignations on the ground that their efforts to protect the morals of the community have not met with the support of the city fathers.

The council recently held a special session and in spite of the protests of clergymen and others, voted four to two to allow the pictures to be shown.
